That was all the money paid by the city for legal services during those four years. The council which followed and are now asking to be re-elected gave the office of City Attorney to another firm at a salary of \$750 per year, or \$3,000 for the four years. In addition to that they have paid about \$2,000 during the four years to Mr. Ashbrook, another attorney, a member of the "old council," and who naturally wants to be re-elected. Who would not at these figures? That makes \$5,000 paid for attorneys' fees during the last period of four years. Is not that economy? Besides the regular salary to the City Attorney, Mr. Ashbrook received \$500 for his services in the tax suits against the banks. He collected from the banks and paid it into the City Treasury. Many believe that glasses should be restored to only when the sight becomes so defective as not to be able to do without. This is a great mistake which must be combatted Whenever there is unmistakable evidence of the need of their aid, they should be used. A neglect of this rule sometimes produces mischief which results in serious trouble if the course be persisted in.
